

Swedish Neutron Week 2021 - a LINXS Partner event with SNS and SWEDNESS

Wednesday 12 May 2021

GISANS session (10:00-12:15)

time	[id] title	presenter
10:00	[34] Welcome - Tommy Nylander & Max Wolff	
10:05	[35] Tom Arnold: Overview of GISANS initiative for ESS	
10:20	[36] Alexei Vorbiev (Uppsala University and ILL): GISANS option on Super ADAM reflectometer	
10:40	[37] Karolina Mothander (Lund University): Curved lipid interfaces studied with GISANS	
11:00	[38] Sebastian Jaksch (ESS and Jülich Centre for Neutron Science JCNS): Phospholipid membranes and salt: A structure and dynamics study	
11:20	[39] Calvin Brett (KTH): Water induced restructuring of organic electronics	
11:40	[40] Niklas Ottosson (Swedish Research Council, VR): Short update from Swedish Research Council	
11:50	[41] Discussion
