

# LINXS Partner event - Lipid Bilayers at ESS- BESS in Lund, 13-15 June 2022

## Wednesday 15 June 2022

### Session 8 - Application of membranes (10:45-12:30)

time	[id] title	presenter
10:45	[43] Keynote talk 8: Susan Daniel - Regulation of the Coronavirus Fusion Peptide Interaction with the Host Membrane and its Impact on Viral Infectivity	DANIEL, Susan
11:30	[44] Contributed talk 22: Magali Deleu - Plant plasma membrane models to study the molecular mechanism underlining rhamnolipid sensing by plant cells	DELEU, Magali
11:50	[90] Contributed talk 23: Ben Humphreys - Can neutron reflectometry monitor the kinetics of thin film lipolysis?	HUMPHREYS, Ben
12:10	[91] Contributed talk 24: Aurelien Furlan - Development of asymmetric liposomes to mimic plant plasma membrane using cyclodextrins as lipid carriers – Influence of phospholipid fatty acid chains	FURLAN, Aurelien
