

LINXS 3rd Integrative Structural Biology symposium, May 4-6 in Lund

Wednesday 04 May 2022

Keynotes and Short talks (Chair: Thomas Ursby) (13:25-15:35)

time	[id] title	presenter
13:25	[2] Keynote 1, Prof. Richard Neutze - Recent advances in time-resolved crystallography	Prof. NEUTZE, Richard
14:15	[3] Short Talk 1, Philip Ash - Harder and faster: electrochemical solutions to problems in metalloprotein biophysics	ASH, Philip
14:35	[4] Short Talk 2, Ping Li - Structural basis of [2Fe-2S] Cluster Export by Mitochondrial Atm1	LI, Ping
14:55	[5] Keynote 2, Prof. Vanessa Ruta - Making sense of scents: structural insights into odor detection	Prof. RUTA, Vanessa
