

# Dynamics of Membranes and their constituents

## Friday 14 September 2018

### Membrane Dynamics and Protein Interactions: Morning session - Auditorium (09:00-10:20)

**-Conveners: Marite Cardenas**

time	[id] title	presenter
09:00	[22] Keynote 11 - Quasi-elastic Neutron Scattering as a Tool for Probing Membrane Dynamics	Dr. GARCIA SAKAI, Victoria
09:40	[23] Keynote 12 - Simulations of Structural Transformations in Ceramide Phases from fitting structures to CEMOVIS image data	Prof. LINDAHL, Erik

### Membrane Dynamics and Protein Interactions: Morning session - Auditorium (10:50-11:50)

**-Conveners: Marite Cardenas**

time	[id] title	presenter
10:50	[24] Contr. Talk 10 - Arginine-rich Cell-penetrating Peptides: Solution Behavior and Membrane Permeation	Mr. TESEI, Giulio
11:10	[26] Keynote 13 - Lipid & Cholesterol's Impact on the Functional Structure of Membrane Proteins: Insights from Solid-State NMR	Prof. HONG, Mei
