

# Workshop - Scattering and Dynamics of Flowing Soft Material

## Monday 10 December 2018

### Early afternoon session - Colloids - Tera (13:30-15:30)

time	[id] title	presenter
13:30	[23] Keynote 1 - X-ray imaging of flowing concentrated suspensions	Dr. OVERLEZ, Guillaume
14:10	[24] Contr. Talk 1 - Sedimentation Induced Flow and Anomalous Dynamics in Field Driven Self-assembly of Magnetic Colloids Studied by XPCS	PAL, Antara
14:30	[25] Contr. Talk 2 - Orientation distributions of plate-like colloidal particles in complex flows – a synchrotron X-ray diffraction study	RENNIE, Adrian
14:50	[26] Keynote 2 - Scattering and microscopy probes in colloidal systems under shear: Linking structure and dynamics with mechanical response	Prof. PETEKIDIS, George
