

Workshop - Scattering and Dynamics of Flowing Soft Material

Tuesday 11 December 2018

Early afternoon session - Polymers - Tera (14:00-15:00)

time	[id] title	presenter
14:00	[19] Keynote 8 - Studying the influence of molecular conformation on extensional rheology by combining filament stretching rheometry with ex-situ SANS	Dr. HUANG, Qian
14:40	[18] Contr. Talk 9 - Poised between order and disorder: sheared DNA solutions across the Isotropic-Nematic transition	ZANCHETTA, Giuliano
